RE: Green Energy Panel Installation

To whom it may concern.

Green Energy installed panels at Granbury Care Center in August 2018. We saw a reduction of 14.3% on our first bill. We are going to have the panels installed in 3 additional properties.

We are pleased with the work done by Danny and his team and look forward to additional savings throughout the coming years.

Respectfully,

A handwritten signature in black ink that reads 'Gary Blake'. The signature is fluid and cursive, with a long, sweeping tail on the letter 'e'.
