To Whom It May Concern

Mr. J. O. Monica has asked me for an update information letter on my almost 10 years of operating my convenience store with the Green Energy Panel installed. As I report to Mr. Monica in May of 2011, after one complete year of operation, I informed him that the Green Energy Panel reduced my bill by 20,790 KWh and \$2,261.00 (16%) over the previous year without the panel. That would equal a savings in excess of \$20,000 for the upcoming 10-year period.

I would like to also mention that the maintenance on my electrical equipment has been also impressive. For example, my walk-in cooler before the panel was installed was requiring constant expensive maintenance. I'm glad to say that headache and those expenses have all but been eliminated.

I am pleased that after almost 10-years of using the Green Energy Panel in my store, I am still very happy with its savings performance.

Sincerely,

Harry Haribhai
(Owner-Operator)
